

## *A New Event for This Summer*

### *Fiber in the Forest*

If you like camping and like working with fiber, then here's an event for you! Join us for a weekend of campfires, fiber, food, and fun. Bring the family and let them explore the park while you relax and work on your projects.

Destination: Chain-O-Lakes State Park, Honeysuckle Camping Loop.

The state park is close to home, has miles of trails, fishing, and plenty to keep the family busy while we work on our projects.

Date: Friday, June 26 thru Sunday, June 28

We'll arrive Friday afternoon (check-in begins at 3:00PM) and stay until Sunday afternoon (again, 3:00PM checkout).

Reservations: You can make your own today!

You can reserve a site by contacting the Chain-O-Lakes State Park or by going on-line using Reserve America at [reserveamerica.com](http://reserveamerica.com). Sites are \$25/night plus a \$5 non-refundable reservation fee.

Food: Pack your own picnic basket with your family favorites.

Camping is not the only option: Honeysuckle section has cabins that you can rent.

Camping cabins are available and can be reserved. Please check the Chain-O-Lakes State Park web site or [reserveamerica.com](http://reserveamerica.com) for details.

You can also just come for the day on Saturday. Park guests who are not campers must leave the park by 9:00PM-but that gives you a full day of fiber fun and you can still be able to take care of your animals and sleep in your own bed.

Penny and I have reserved site 66. You'll find us in the Shasta camper. Rain or shine-we go camping. We're hoping for good weather, and would love to see you there. Who knows, we may find the answer to that age old question, "Does a bear knit in the woods?"
